

Satisfactory Academic Performance

Diagnostic Medical Sonography

Western Suffolk BOCES wants all students to succeed in the programs it offers. To earn a certificate of completion, BOCES has established the following criteria for both attendance and academic progress that students must meet in the program for Diagnostic Medical Sonography.

Completion Policy. Criteria for successful completion of the program are:

- A. Attainment of a transcript grade of 75% or better for each area of study and 75% in each clinical area.
- B. Student must achieve at least 75% in each of the following clinical competencies in order to satisfy graduation requirements:
 - Abdomen
 - Superficial structures
 - Non-cardiac chest
 - Obstetrics
 - Non-gravid and gravid pelvis: transabdominal and Endovaginal
 - Vascular: extracranial cerebrovascular, intracranial, extremity arterial(upper and lower), extremity venous (upper, lower) and abdominal.
 - Echocardiography
- C. Western Suffolk BOCES is committed to upholding the standards of the profession. We aspire to instill in our students an obligation to the profession of Sonography by requiring that they commit to become registered in at least one Ultrasound specialty of their choice (which involves passing the specialty exam and the corresponding physics exam) upon graduation. The approximate cost for each registry exam is \$250 therefore it will cost \$450 to become registered in one specialty.

Withdrawal Policy

Students withdrawing from the program must submit a letter to the Program Director. Upon receipt of

placed on probation. If a student exceeds the maximum number of hours allowed in either of the years, he/she will be immediately dismissed from the program. Any lateness or leaving early will be charged quarter hourly ex. 10 minutes will be charged as 15minutes and 20 minutes will be charged as half an hour. Further recurrences and the student will be assigned mandatory make-up, or face possible dismissal from the program.
