

# Satisfactory Academic Performance

## Practical Nursing

Western Suffolk BOCES wants all students to succeed in the programs it offers. To earn a certificate of completion, BOCES has established the following criteria for both attendance and academic progress that students must meet in the program for Practical Nursing.

**Completion Policy.** Criteria for successful completion of the program are:

Attainment of a transcript grade of C or better for each area of study, 85% or better in Pharmacology and a "Pass" grade in each level of clinical instruction (the transcript grade is a computation of all grades achieved in each area of study and is part of the student's permanent record).

A student will be placed on probation if course/unit grades/clinical performance fall below 75%
